Taught amazingly

I looked pretty hard but never found a practice Exam for Exam 3.

Materials were very clearly organized and easy to find!

Zoom is always a little bit awkward, but Mr. Townsend did an awesome job about creating a friendly and open space to learn new material.

24. Which elements of this course had the most positive impact on your engagement and/or learning?

The real world examples

Keeping us engaged through asking questions throughout the class

All of them. They were great with

I thought the in-class discussion has the most positive impact on the engagement and learning. It allowed students to share their own opinions and ideas whether it was necessarily the "correct" answer or not, which I thought was a good aspect of the class. I also enjoyed that the professor gave us breaks throughout the class period instead of making us stare at our computers for 2 hours straight.

the demonstrations in class

It is difficult to fully grasp some concepts because the class is so accelerated, the lecture notes helped me learn the material.

I think this course definitely tested my self-discipline and time management. With this being a summer course, it was sometimes difficult to put aside other activities or leave friends to actually sit down and study the material!

Having a good professor.

Working through problems during class was really helpful, since it helped me determine whether or not I really understood something. I also liked how this class focused on active engagement/participation; it helped me stay more focused and on-task since there were times I had to share my input on a problem or topic.

25. Which elements of this course could be improved to have a more positive impact on your engagement and/or learning?

Recorded lectures

Not that I know of. Thank you Professor Townsend for a great month of learning, and I wish you success in your continued studies.

I believe all elements of this course

I thought the class was ran very effectively given the circumstances of being an online course. All in all, I thought the course was

quick but effective and there is nothing in particular that I would change.

nothing i enjoyed the layout

The quizzes provided on Canvas were not always aligned with the content of class.

I think this course was a very successful and beneficial class. The only thing is, and I have no idea if this can influence anything, but to have the class an hour later. College kids need to sleep ;) Thank you!

None.

can't think of any
