The Antitrust Revolution book was one of the most effective materials I have used in school.

The rest of the course is very well balanced but the exams are very difficult.

24. Which elements of this course had the most positive impact on your engagement and/or learning?

The case studies allowed us to get examples of what we were learning about in the lecture.

The professor cared about our work's quality and used constructive criticism to help us improve our writing throughout the course.

Has helped me learn that I write more passive voice than I write active voice in my essays.

I gained a lot of writing skills in this course because of the emphasis on passive writing.

The lectures had the most positive impact on my engagement and learning.

25. Which elements of this course could be improved to have a more positive impact on your engagement and/or learning?

n/a

He should have the notes filled out if you have missed a class. instead he just leaves them blank and if you missed the class you have to ask someone else for the notes.

I think the exams could be more balanced but other than that he did a fantastic job with this course.

I can not think of any elements of this course that could be improved.
